SANANDA JESUS

Oh my beloved chela, it is requested that I come first on this morning. We have been called to conference in order that we might know best how to assist you. There is a lack of understanding in the functioning of our dimensional hierarchy and my beloved brother, Commander Hatonn, will explain this a bit later, in depth, so that it might be better understood. This message is for your use my beloved Oberli. It is to be directed to that one whose physical consciousness on your plane is recognized as W.C.

It is with great love that we come to share this day. The time upon our beloved earth grows critically short. There cannot be much further postponement of time to get our projects underway and we have been patient long. Our dear brother, W.C., is in gross confusion, he feels powerless, it all is because he does not understand how, in your terms, the system works. He must know that he accepted our request to serve in this manner and his commitment was an honorable one. He is being sidetracked by those things which he does not understand.

It is with great compassion that we come to share. I am the Captain of this ship in your earthly terms and my course must not be altered. There are many things taking place within your mother earth which I have grown to love. Time has speeded beyond your ability to comprehend. It is time we give that dear one, W.C., greater assistance, but he must be willing to follow our instructions for he has been misled in the teaching of how to request our intervention.

I come first this day so that you ones may know of the importance of these messages of this day. I hold you closely by my hand and I will allow none of mine to fall over the precipice, although all of my people walk upon the brink of that precipice. I will remain within this circle this morning while my beloved brother communicates with that one within. You are wrapped in my love my brothers, my dearest brethren, I am that one known as your brother, Jesus Sananda, peace.

HATONN

Greetings Oberli, Hatonn here. Good morning in the light of our radiant one who shares with us this day. I am greatly honored by his presence. I have called upon you ones in order that you might be the conduit by which I can give assistance more readily to that one who has asked that one W.C. It is by his own free will that he may use or discard the input which will be given for him through you. We would wish that he would use the methods which I will outline for him. And as for you, Oberli, and that little one, Dharma, I need to make clear some of the workings within our outer dimensions that are not fully understood by you ones. It is not in my realm of technicality, but I believe that I can make myself quite clear in how to proceed in order that these things might be accomplished, that must be accomplished in a more timely manner. W.C. is an extremely devoted, believing entity that his consciousness has for too long a period of time been conditioned to expect the negative instead of the positive. Just as with the two of you, regardless of what efforts you make on the conscious level, you still believe that the manifestations will not ever become perceived reality. Today it has been agreed within our realms that you would be given what you would call a cram session, a crash course if you will; in how best to utilize our assistance and how to open up so that we may assist, but it will require determination and some effort on the part of our dear W.C.

Oberli, you are to see to it that a clear, clean copy of Dharma's Self Hypnosis Tape and a clean, clear copy of that tape which we gave her for meditation induction. W.C. is to experience that self-hypnosis at least a minimum of three times. He is well advanced in the ability of relaxation. He needs to become familiar and at ease with that voice, this voice through which I speak, and then he must at least two times per day, experience the meditation tape. It would be good if he curtails some of his activities at that place called The Saddleback Inn. He places himself in the midst of such negative energies, such using energies that tend to seep and ooze from his very power. It is very frequently a sharing of nothingness, much discussion and much talk, much in your terms "back biting" and erroneous boosting of egos and then the fall always comes with the reality that it is not this way. W.C. will understand that he has outgrown the need of this. He is being despicably used by those

who gather and pretend their devotion . They are not devoted, they are leeches, they will betray him when another comes who can offer more.

Oberli, please pause for a moment. I wish to explain and I will try to put this in words that would be easy for you to understand. Some of you will already understand, but it will bear repeating if you have heard this before. It is important, William, that you understand there are entities, spirits, as they are most commonly conceived, and they are soul, as in the concept of that one, Socrates, or whether they have some other form, the maker of which we cannot now describe for the lack of data. It is immaterial.

Something exists out there from you, out here where we are, which attempts to communicate with you, just as some of us in this dimension, although sometimes feeble in effort, attempt to communicate with you. It has been easier, we have found, for one to receive communication while in a state of rest, the hypnotist would call it trance. It need not be trance, simply a state of total relaxation, because when one is meditating on a conscious level, the consciousness sets the rules and you cannot go beyond that consciousness, calculating that censorship of the conscious mind.

You must get beyond that. Therefore you are to take the self-hypnosis training, which we are instructing Oberli to make sure is duplicated on both sides, to hasten the transition into that state. You will not have to re-wind your tape, simply turn it over, run it on fast forward , then turn it to the other side. If you have no tape recorder that is suitable, simply go and purchase an inexpensive one that has an automatic shut off, so that you might drift into sleep without having to turn the machine off. We will touch you in your dream state more vividly than you can imagine. You ought to utilize that tape a minimum of three times through, so that you are familiar and comfortable with that presentation. When you are to change, in addition to, or singularly, use the meditation tape which is also identical on both sides of the tape to facilitate your simply turning it over when it reaches the end for the next time when you wish to go into meditation, so that it is always ready. It would be good if you had available to you two such recording devices. One with a small microphone always with a clean tape, pushed to pause, so that you might gather the microphone into your hand and speak even in your sleep. We will rouse you enough to pick up your microphone but you will forget in your consciousness., therefore you will need to make a recording of what we did give to you so you will need two quite inexpensive pieces of equipment. One to play the tape so that you might hear it, the other one into which you can record.

At this particular point you have no second one to serve as the question asker, therefore it will be necessary that until such one is available, you would be able to function in your aloneness. As you meditate, prior to going into the state of relaxation and meditation, take a paper and mentally image what it is you require of us. There is a misconception that we simply look down and everything that's spread before us is an open book. Even were that true, we would not assume to walk upon your free will. You, my beloved brother, W.C., must be more careful. Those that you feel are in total trust, are often not trustworthy, and as time goes by and our communication with you grows, we will allow your inner knowledge to know which of those energies you should take exceptional care of with your business.

You will need to formalize some types of questions. You will need to mentally visualize these energies upon your plane with which we are to function or enter into work. At this point, for instance, Oberli has come to us with a request that we participate and assist you in closing some of your transactions, but we cannot do that because we do not know who to contact. You must find out more details, my brother, about your own transactions, or you may well be left with your hands quite empty. We require that those ones working within those transactions give you proper information. This is not to cause you to mistrust, this is simply good business. It is our intention to always place at your disposal, good business projects. We have sent many such projects to your attention. We are working with that one, John Jeffers. John has learned how to contact us in these higher dimensions and he does so regularly. The more regular be your contacts with us, the more rapidly we can move. Keep a daily appointment with your subconscious mind, it is an open channel to we in the higher dimensions . It is a formal meeting of the mind and always the last thing in the evening. Dwell upon these thoughts in a state of meditation, put your concerns, your worries, and your cares aside, for I will tell you, my brother, you cannot one moment release these things to us and the next moment take them back, and expect us to manifest those things you have requested.

You must be trusting, you must be credulous, and by just that, you make it easier for those we will call your friends to communicate with you. Believe me my brother, you have those friends. Oberli said, "until you

recognize those friends, I'm going to give you two". Hatonn said, I am going to give you two, two names, two labels that you may call into your meditation. These two are your guides, they work with you all the time. You just do not understand that they are there. The one that is always with you is one called "Jason", the other is called "Soaring Eagle", and through these two you can learn of others, but these two called into your consciousness will be your link. Use them, rely on them, discuss everything with them, and as these ones communicate with you, after you receive their alleged messages, pick them apart, dissect them and then decide. To leave in a state of meditation whether or not the input deserves to be regarded as genuine communication, the sorting system will not be lengthy. You will know when the input is valid, but obviously, William, you must receive these messages before you can pick them to pieces.

#### GCH EXPLAINS HIS DIMENSION TO WILLIAM (Start 30:53)

I am of the Galactic Fleet. I am a galactic Commander.

I come from a much higher dimension, as you come from a higher dimension, but you have chosen to manifest on planet Earth at this critical time, and your awakening WILL take place, and you WILL understand the commitments you made.

I will talk about my own situation first so that you might BETTER UNDERSTAND HOW WE IN THIS DIMENSION MUST FUNCTION. This environment provides far more challenge than any of you know of. It also necessitates manipulation of creative materials that are nearly beyond your present comprehension.

First, YOU MUST UNDERSTAND THAT NO OBJECTIVE REALITY EXISTS BUT THAT WHICH IS CREATED BY CONSCIOUSNESS:----- CONSCIOUSNESS ALWAYS CREATES FORM AND NOT THE OTHER WAY AROUND.

So my environment is a reality of existence created basically by myself and those others like me, and it represents the manifestation of our own development. Here we don't use permanent structures. This is not a city, it is not a town, for example, in which I dwell. We're not off in empty space somewhere and I do not mean to imply that. For one thing, we don't think of space as you Earthians. We form whatever particular images we want with which to surround ourselves. And those are created by our mental pattern, actually just exactly as your own physical reality is created in perfect replica of your energy desires and thought, for that you simply do not understand. You presume objects exist independently of you while not realizing they are instead the manifestation of your own psychological self. We know that we form our own reality and therefore we can do that with considerable joy and abandon. You would be extremely disoriented in my environment. It would appear to have no coherency to you. But we're aware of all inner laws that govern all materialization and we can arrange night or day to manifest whatever it is that we desire.

You see all systems of reality are not physically oriented and some are entirely unacquainted with physical form. They do not even relate to what you recognize and perceive as your reality. You form your own physical image at an unconscious level, and in more or less the same manner as we, but with some important differences. You do not realize that you are creating even your own physical body from moment to moment, and as each moment passes, the past one is as if it never existed, it is only a memory, but it is the memory of the happening that cause one to function either negatively or positively . We have been able to change our form and adjust our perceived reality just as you can.

Let us speak practically for a moment. We are more advanced in this dimension along those lines than are you. And when we create such forms, we do so with complete awareness. Now I share my field of existence with others who have more or less the same challenges to meet, the same overall pattern of development. Some of these energies I have known and some I have never known. We are able to communicate telepathically, but then again, think about that William. Telepathy is the basis for your language, and without that telepathy, symbolism would be totally meaningless. In your present perceived reality you feel relatively incompetent to handle present physical reality or to alter your environment to effect and change your world. You feel somewhat at the mercy over conditions of which you seem to have no control, but you can learn to change your physical environment simply by learning to change and manipulate your subconscious or dream state environment YOU MUST LEARN TO CONTROL YOUR MENTAL IMAGES. YOU MUST PLACE THOSE MENTAL IMAGES BEFORE YOU, AND YOU MUST ACCOMPANY THOSE IMAGES BY STRONG EMOTIONS

REGARDING THOSE IMAGES AND WHAT IT IS EXACTLY YOU WISH TO PRECIPITATE OR MANIFEST. FOR THESE ARE BLUEPRINTS.

THEY ARE BLUEPRINTS UPON WHICH CORRESPONDING PHYSICAL OBJECT OR CONDITION OR EVENT WILL IN YOUR TERMS APPEAR OR MANIFEST IN OUR TERMS. THE INTENSITY OF A FEELING OR THOUGHT OR MENTAL IMAGE IS THEREFORE THE MOST IMPORTANT ELEMENT IN DETERMINING THE SUBSEQUENT PHYSICAL MATERIALIZATION. YOU MUST NOT WAIVER IN YOUR INTENT. YOU MUST HOLD THOSE THOUGHTS LONG ENOUGH, WILLIAM, SO THAT WE CAN GRASP THEM BEFORE YOU CAN MANIFEST ANYTHING OF YOUR CONSCIOUS DESIRES. IT MUST MATCH THE SOUL'S DESIRE. YOUR SOUL ENERGY MUST ALSO WISH THAT MANIFESTATION.

We do not work from the conscious requirement, or request of us, because the conscious mind does not have any idea what it wishes. As I have told these two before, if we manifested what is requested of us by most ones in their conscious mind, we would have havoc, anarchy and chaos, murder, rape, and pillage, upon your planet. The conscious mind inadvertently speaks vile and ridiculous things and requests unbelievably stupid items. Therefore, the conscious functioning mind must be in perfect harmony with the request from soul intent and when those two requirements are met, then we can function. The intensity actually is the core about which the electromagnetic energy units form.

In your terms, the more intent the core, the sooner the physical materialization. And I might add, this would apply whether the mental image is a filthy one or joyful one. To you, you see it does not matter, either can be produced, therefore you have a very important problem here if your mind is highly intent and you think in VIVID mental and emotional images. These will be swiftly formed into physical events, so you must be careful. And if you are of a highly pessimistic nature, as you become each time you pick up the phone, and you do not have a schedule, it is simply re-enforcing the negative response you have, even if it inadvertently created the negative response on the other end of that telephone without even realizing it. You have given thought and feeling of potential negative matter, and they have been quite faithfully reproduced. in your experience.

It is a pattern which must be broken, and can only be broken in that state of meditation, and believe me, we can do it, and we can do it rapidly. The more intent your imagination and inner experience, the more important it is that you realize the method by which the inner experience becomes physical reality. Your thoughts and emotions began their journey in the physical actualization, forgive my tied up tongue, at the moment they are conceived in your mind It is interesting to note here that in this particular state of meditation or trance, you will have become, let us call it, the spirit energy of yourself. Now the spirit has a consciousness, but the consciousness belongs to the spirit once you have departed the physical consciousness, and the two are NEVER to be mistaken as the same. The spirit may then turn its consciousness off and on, and by its nature, consciousness flickers and fluctuates, but in the spirit form it never does. In this state as well as in the dream state, you learn among other things, the ability to construct your own physical reality on a day by day basis. As a matter of fact, that is exactly what happens when you pass into your next dimensional state. In that state you then learn how to construct your next physical lifetime, but the premise remains the same.

You must never forget for an instant that your experience ALWAYS, ALWAYS FOLLOWS YOUR EXPECTATIONS, and I know, William, that you know these things. I am simply repeating them to you to bring them to the forefront of your consciousness so that you may intentionally set them aside in your space of meditation. I am going to emphasize this one point again, SO PLEASE HEAR ME CAREFULLY.

IT IS THROUGH THE COMBINATION OF THOUGHT, EMOTIONS AND DESIRE WHICH CREATES FORM, POSSESSES ENERGY AND IS MADE UP OF ENERGY WHICH THEN ALLOWS WHAT YOU PERCEIVE AS PHYSICAL MANIFESTATION, WHETHER IT BE OBJECTS, OTHER ENERGY, FRIENDSHIPS, OR IN THE CASE IN POINT, THE MANIFESTATION OF FUNDS AS YOU REFER TO AS MONEY.
